## Email Options

### Email Addresses & Email Boxes

All accounts with Datacenter include 10 email addresses and 10 email boxes. You allocate each email address to an email box. When you log in you log in to a specific email box and collect the email sent to all the addresses that are directed to that box.

In the example to the right Bob is your sales manager - when he logs into box01 he receives all his email - bob@.....com.au and all email to sales@.....com.au. When Sarah logs into box02 she receives all her email and any email sent to info@.....com.au.

Email address	→	Email box
□□□□□ b o b	→	0 1
□□□ s a l e s	→	0 1
□□□ i n f o	→	0 2
□□□ s a r a h	→	0 2

Email address	→	Email box
□□□□□□□□	→	□□
□□□□□□□□	→	□□
□□□□□□□□	→	□□
□□□□□□□□	→	□□
□□□□□□□□	→	□□

Email address	→	Email box
□□□□□□□□	→	□□
□□□□□□□□	→	□□
□□□□□□□□	→	□□
□□□□□□□□	→	□□
□□□□□□□□	→	□□

### Email Aliases

Email aliases are used to redirect your Datacenter hosted email address(es) to external email addresses. If you have an existing email address with another ISP we can redirect your email to that address if required.

Datacenter hosted email address	→	Email address to redirect to
□□□□□□□□ @	→	_____
□□□□□□□□ @	→	_____
□□□□□□□□ @	→	_____
□□□□□□□□ @	→	_____
□□□□□□□□ @	→	_____
